Time is money.

Especially for the professional driver.
Every minute they don't spend waiting
can be used to drive another mile, earn
another dollar, or relax and refresh.

A white smartphone is shown vertically on the left side of the image. The screen displays the myPilot logo, which consists of the word "my" in a stylized yellow font with a wavy underline, followed by "Pilot" in a white, bold, sans-serif font. The background of the screen is dark gray. At the top of the screen, the status bar shows "Verizon" with signal strength bars, the time "3:06 PM", and battery status "74%".

FUEL LANE STATUS

Helps drivers choose the fuel lane most likely to open up first.

- Once at the travel center, drivers can open the app to see available diesel lanes.
- Based on the time the handle has been lifted, the app will indicate which lane should open up first.

Less waiting. Less stress.

CARDLESS FUELING

Drivers can store all prompts and cards for future use, and receive digital receipts.

- Information typically entered at the pump can now be completed within the app and saved for future use.
- Store fuel cards, major credit cards, myRewards loyalty card, etc. in the mobile wallet, accessible through a secure pin code.
- Once prompts are complete, driver is given a code to start the pump.
- Works with all major trucking fuel card companies, with no difference in current reporting of transaction types.

Faster throughput. Secure transactions.
